Executive Management Brief — Admissions Office Content Audit 360

Prince Mohammad Bin Fahd University (PMU) · Deanship of Enrollment and Registration · PMU-ADM-360-MASTER-20261022 · v3.0

To: Mr. Radhi H. Alkhaldi — Associate Director of Enrollment

From: Nader Al Farhan — Administrative Assistant | Student Affairs

Root source: https://www.pmu.edu.sa/admission/admission

Verified on: 21–22 Oct 2026 (Asia/Riyadh)

READY FOR MANAGEMENT REVIEW

NOT READY FOR VERIFIED CLOSURE

1. Executive result

The published content of the Admissions Office section is extensive and generally organised by applicant category, but it is not currently reliable as a single source for applicants: on 22 October 2026 the four highest-risk issues remain live — no current admission cycle is visible, application fees conflict for two applicant groups, and a discontinued test (SAT II) is still required. Across 47 examined resources the review records 131 findings (4 P0, 21 P1), 14 of them open conflicts between published sources. None of the six amendments requested on 26 October 2025 is fully published. Ten decisions are required; most fee and requirement values sit with authorities outside the Admissions Office and should be referred rather than decided within it.

2. Scope, dates and proven coverage

35	47	434	71	129/131
direct destinations of the root page	eligible resources (43 full · 4 partial)	unique links checked (3 × 404)	PDF pages read (2 guides)	findings VERIFIED (2 BLOCKED)

Five sections of the root page (Future Students; International Students' Office; Graduate Admissions; Undergraduate Admissions; Undergraduate Placement Tests), their 35 destinations, two PDF guides and nine official verification pages. Full capture 21 Oct 2026; P0 items re-confirmed live 22 Oct 2026. Read-only: no forms submitted, no portal login, no applicant data, no website change. Coverage refers to the discovered inventory, not the whole website.

3. Principal risks (P0)

P0 **F-014 — Admissions calendar shows only an expired cycle** · Outdated or expired content · Decision D-02

The Admissions Calendar displays only the Fall 2026-2027 cycle, all of whose dates have passed (the last being the start of classes on 30 August 2026), with no announcement of the next cycle or of the closure of admissions. In addition, the announcement of admission results (19–21 July 2026) begins one day before the deadline for submitting IELTS/TOEFL scores and transfer applicants' documents (20 July 2026), with no explanation of how this is handled.

Reference: Dates published in the calendar compared with the observation date

P0 **F-039 — Conflicting application fees for transfer and visiting students** · Conflict between two or more sources · Decision D-01

The International Students page states that the application fee for transfer and visiting students is SAR 500 excluding VAT, whereas the Transfer Admissions page, the Visiting Students page and the official fees page state that the undergraduate application fee is SAR 950 including VAT. The same page also states SAR 950 including VAT in its Freshman Students section.

Reference: OPEN CONFLICT — published fee statements conflict; the PMU "Other Fees" schedule states "includes the VAT 15%", but no approved, dated fee decision is available → ESCALATION REQUIRED

P0 F-052 — Conflicting College of Medicine application fee · Conflict between two or more sources · Decision D-01

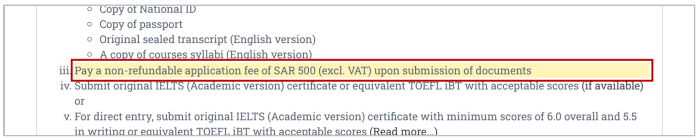

The College of Medicine page states that the application fee is SAR 1000 including VAT, whereas the medical programme fees page states SAR 1,150 including VAT (equal to SAR 1000 plus 15%). The other undergraduate pages and the Apply page, which state SAR 950, do not indicate that the College of Medicine has a different fee.

Reference: OPEN CONFLICT — published fee statements conflict; the PMU "Other Fees" schedule states "includes the VAT 15%", but no approved, dated fee decision is available → ESCALATION REQUIRED

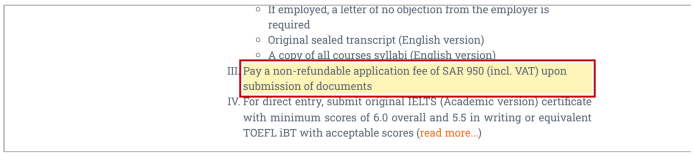

P0 F-040 — International freshman criteria require discontinued SAT II test · Outdated or expired content · Decision D-03

For Computer Science and Engineering majors, the International Students page requires the SAT II test with a 30% weighting, a test discontinued by its administering body (College Board) in 2021. It also omits the higher minimum secondary-school GPA (85%) and the SAT alternative with a score of 1200 that are published on the Computer Science and Engineering requirements page and the SAT page.

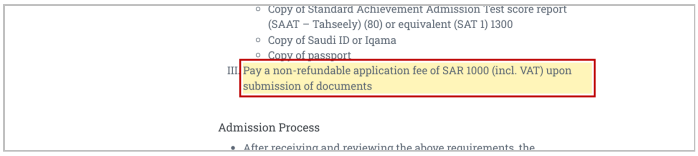

Reference: College Board — "An Update on Reducing and Simplifying Demands on Students" (SAT Subject Tests discontinued; final international administration June 2021). https://allaccess.collegeboard.org/update-reducing-and-simplifying-demands-students

EV-02 · International Students: SAR 500 (excl. VAT)

EV-03 · Transfer: SAR 950 (incl. VAT)

EV-05 · Medicine page: SAR 1000

EV-06 · Medical fees: SAR 1,150

4. Priority findings (P0–P1)

ID	P	Finding	Classification	Status	Decision
F-005	P1	Footer "Academic Calendar" link opens the 2021/2022 calendar	Outdated or expired content	ESCALATION REQUIRED	D-02
F-012	P1	Programme lists incomplete and inconsistent across admissions pages	Conflict between two or more sources	OPEN CONFLICT	D-05
F-014	P0	Admissions calendar shows only an expired cycle	Outdated or expired content	ESCALATION REQUIRED	D-02
F-020	P1	Admission Query form lacks privacy notice and alternative contacts	Missing information important to applicants	ESCALATION REQUIRED	D-07
F-023	P1	Undergraduate admission requirements hidden by immediate redirect	Missing information important to applicants	ESCALATION REQUIRED	D-03
F-024	P1	Conflicting descriptions of the SAT 1 (1200) alternative	Conflict between two or more sources	OPEN CONFLICT	D-03
F-030	P1	Application portal and website calendar present conflicting information	Conflict between two or more sources	OPEN CONFLICT	D-02
F-035	P1	Broken scholarship and GPA-calculator links in the side menu	Verified error in published information	OPEN	D-06
F-036	P1	Linked Web Admission Guide is outdated and conflicts with current fees	Outdated or expired content	ESCALATION REQUIRED	D-01, D-06
F-039	P0	Conflicting application fees for transfer and visiting students	Conflict between two or more sources	OPEN CONFLICT	D-01
F-040	P0	International freshman criteria require discontinued SAT II test	Outdated or expired content	ESCALATION REQUIRED	D-03
F-041	P1	No published application route or deadline for non-Saudi applicants	Missing information important to applicants	ESCALATION REQUIRED	D-02

F-042	P1	Missing SAT minimum and empty Transportation section for international students	Missing information important to applicants	ESCALATION REQUIRED	D-03
F-052	P0	Conflicting College of Medicine application fee	Conflict between two or more sources	OPEN CONFLICT	D-01
F-053	P1	Inconsistent application channel across undergraduate pages	Ambiguity in procedures or fees	ESCALATION REQUIRED	D-02
F-054	P1	College of Medicine minimum scores inconsistent with weighted-score threshold	Verified error in published information	OPEN	D-03
F-059	P1	TOEFL iBT minimum not published on undergraduate admission pages	Missing information important to applicants	ESCALATION REQUIRED	D-03
F-070	P1	Inconsistent list of majors with special admission requirements	Conflict between two or more sources	OPEN CONFLICT	D-03
F-073	P1	Conflicting IELTS minimum between application form and programme pages	Conflict between two or more sources	OPEN CONFLICT	D-04
F-074	P1	Engineering Management Master's programme listed without an application route	Ambiguity in procedures or fees	ESCALATION REQUIRED	D-05
F-084	P1	Ambiguous eligibility conditions for the PhD in Business Administration	Ambiguity in procedures or fees	ESCALATION REQUIRED	D-04
F-097	P1	Engineering Management requirements page contains another university's content	Verified error in published information	OPEN	D-04
F-099	P1	Incomplete admission requirements for the International Business Law Master's	Missing information important to applicants	ESCALATION REQUIRED	D-04
F-100	P1	Conflicting IELTS and TOEFL thresholds for the International Business Law MA	Conflict between two or more sources	OPEN CONFLICT	D-04
F-117	P1	Conflicting accepted tests for direct Core Program entry	Conflict between two or more sources	OPEN CONFLICT	D-03

5. Decision & Approval Matrix

DIRECT = can be directed within the Admissions Office; REFER = to be referred to the competent authority. No decision has been approved.

ID	Matter	Recommendation	Decision authority	Role	Verification
D-01	**Application fees, VAT basis and test fees**	Option A: Financial Affairs confirms one dated fee schedule by applicant category (with VAT basis); all admissions pages link to it instead of restating amounts.	Financial Affairs (fee authority)	REFER	Admissions Office (read-back)
D-02	**Current admission cycle, calendar and application channels**	Option B immediately (dated interim notice), then Option A when next-cycle dates are approved.	Deanship of Enrollment and Registration / Admissions (academic calendar: Registrar)	DIRECT (interim notice) · REFER (calendar)	Admissions Office
D-03	**Undergraduate eligibility, test equivalences and weightings**	Option A: one approved undergraduate admission matrix (tests, minimums, weights, substitutions, documents), referenced by every page.	Competent academic authority (colleges / academic council) with Admissions	REFER (values) · DIRECT (page alignment)	Admissions Office
D-04	**Graduate eligibility and English-language requirements**	Remove the non-PMU (UA CESL) text now; then Option A: an approved graduate entry matrix by programme.	Graduate studies authority / programme councils	DIRECT (removal request) · REFER (values)	Admissions Office
D-05	**Programme portfolio and official names**	Option A: one authoritative list of programmes open for admission, with official names and abbreviations.	Academic affairs / colleges	REFER	Admissions Office
D-06	**Legacy guides and linked resources**	Option A: withdraw the 2018 guide now and replace it later; restore or remove the three 404 links.	Admissions Office	DIRECT	Admissions Office

D-07	**Contact channels and enquiry-form privacy**	Publish an official Admissions contact block; link the university privacy notice from the enquiry form (privacy wording owner to be confirmed).	Admissions Office (contacts) · OWNER_TO_CONFIRM (privacy notice)	DIRECT (contacts) · REFER (privacy)	Admissions Office
D-08	**Content ownership, review cycle and single source of truth**	Option A: a named owner per page, a review before each cycle opens, and a visible "last reviewed" date.	Admissions leadership	DIRECT	Admissions leadership
D-09	**Approval of ready editorial corrections**	Option A: approve the 48 editorial corrections as a batch (none changes a value or requirement).	Admissions Office (content approver)	DIRECT	Admissions Office
D-10	**Accessibility and technical publishing baseline**	Option B now (fix listed items); consider Option A (WCAG 2.1 AA baseline) with the publisher.	Website publisher / IT — OWNER_TO_CONFIRM	REFER	Admissions Office

6. Corrective Action Roadmap

ID	P	Action	Decision	Prior approval	Proposed target
A-01	P0	Publish an interim notice on the current admission cycle on the root page and Admissions Calendar	D-02	None for an interim notice; calendar approval for dates	Immediately after direction (proposed, non-binding)
A-02	P0	Confirm the fee schedule by applicant category (incl. VAT basis) and align all fee statements	D-01	Financial Affairs confirmation	After D-01 (proposed, non-binding)
A-03	P0	Remove or replace the discontinued SAT II requirement after confirming the accepted alternative	D-03	Academic authority confirmation of the alternative	After D-03 (proposed, non-binding)
A-04	P1	Remove non-PMU (UA CESL) text from the EMGMS page and confirm its English threshold	D-04	Programme owner confirmation	Removal immediately; values after D-04 (proposed, non-binding)
A-05	P1	Approve one graduate English-requirements matrix and correct the generic application form	D-04	Graduate authority approval	After D-04 (proposed, non-binding)
A-06	P1	Approve one undergraduate admission matrix (tests, minimums, weights, documents)	D-03	Academic authority approval	Before next cycle opens (proposed, non-binding)
A-07	P1	Withdraw or replace the 2018 Web Admission Guide; restore or remove broken scholarship links	D-06	Admissions direction	Immediately after direction (proposed, non-binding)
A-08	P1	Publish one authoritative programme list and fix programme naming	D-05	Academic affairs confirmation	Before next cycle opens (proposed, non-binding)
A-09	P1	Publish official Admissions contact details and link a privacy notice from forms	D-07	Admissions; privacy owner to confirm	After D-07 (proposed, non-binding)
A-10	P2	Implement the 48 approved editorial corrections and editorial findings	D-09	Admissions content approval	After D-09 (proposed, non-binding)
A-11	P2	Address the accessibility baseline items (lang attribute, alt text, landmarks, mobile reflow, https links)	D-10	Publisher/IT agreement	After D-10 (proposed, non-binding)
A-12	P2	Assign a named owner per page, set a pre-cycle review and display "last reviewed" dates	D-08	Admissions leadership	Before next cycle opens (proposed, non-binding)
A-13	P3	Design and run a short applicant information-experience survey (design only in this review)	D-08	Separate authorisation + privacy review	To be set (proposed, non-binding)

Every action follows APPROVE → IMPLEMENT → SAVE → REOPEN → READ BACK → COMPARE → VERIFY → CLOSE. Targets are proposals; no commitment is attributed to any unit.

7. Status of amendments requested on 26 October 2025

ID	Request	Status (22 Oct 2026)	Evidence

H-1	Minimum weighted scores 74% (CS & Engineering) / 72% (non-Engineering) with competitive-minimum and interview note	**NOT_PUBLISHED**	No "74%" or "72%" appears on any captured page; the CS & Engineering page refers to a "minimum weighted total, defined by the Admissions Office".
H-2	Addition of B.S. Chemical Engineering	**PARTIALLY_PUBLISHED**	Listed on Degrees & Programs and the list of majors; absent from the special-requirements majors list on the CS & Engineering requirements page.
H-3	Application fee SAR 500 → SAR 950 for international, transfer and visiting students	**PARTIALLY_PUBLISHED**	SAR 950 (incl. VAT) on Transfer and Visiting pages; SAR 500 (excl. VAT) remains on the International Students page. The request specified "excl. VAT"; the official schedule states "includes the VAT 15%". Escalation: the VAT basis of the request conflicts with the published official schedule.
H-4	Removal of SAAT / SAT 2 requirement for CS & Engineering	**PARTIALLY_PUBLISHED**	"SAT 2" no longer appears on the CS & Engineering requirements page, but "(SAAT – Tahseely)" is still listed there and "SAT II 30%" remains on the International Students page. The intended scope of the request (removing SAT 2 only, or Tahseely as well) needs confirmation.
H-5	APTIS retake fee SAR 575 → SAR 950 (VAT)	**NOT_PUBLISHED**	"APTIS Exam Fees SAR 575" on the Other Fees page.
H-6	Revision of the Web Admission Guide	**NOT_PUBLISHED**	The linked guide is unchanged (MD5-identical to 11 Oct 2026; dated December 2018; p. 20 states SR 500).

The requests are treated as historical requests compared with the published content, not as approved policy.

8. Gaps, exceptions and residual risks

- No approved, dated policy or fee decision was available to the review; conflicting values are reported as OPEN CONFLICT, not corrected.
- Two items are BLOCKED: four dynamic portal registration labels (F-033) and the http:// portal link (F-131) — manual check required.
- No applicant data or feedback was available; journey findings are content-based.
- Excluded by mandate: portal login, form submission, security/performance testing, individual applications and student data.
- No correction has yet been published; all P0 risks remain live as of 22 Oct 2026.

9. Quality gates

Gate	Result	Residual note
G1 — Executive Decision Clarity	**PASS**	Proposed authorities require confirmation by management
G2 — Academic & Policy Integrity	**PASS**	No approved PMU policy or fee decision was available; governing values remain to be confirmed institutionally
G3 — Execution & Accountability	**PASS**	Owners are proposed, not confirmed; no implementation authorised yet
G4 — Evidence & Traceability	**PASS**	2 findings BLOCKED (F-033, F-131); external pages located by search, not retrieved directly
G5 — Institutional Delivery Excellence	**PASS**	Visual check performed on sampled pages; owner review of translations recommended

10. Attachments and traceability

- L1-02 Decision & Approval Matrix and Corrective Action Roadmap (XLSX, EN/AR)
- L1-03 Detailed Audit Report (PDF, EN/AR) — findings, evidence figures, method
- L2-01 Evidence & Follow-up Pack (XLSX, EN/AR) — Master Findings Register, Evidence, Inventory, Coverage, Parity, Amendments, Decisions, Tracker, QC, Change Log

All IDs (F-, D-, A-, H-, E-, EV-) are identical across the brief, the matrix, the report and the evidence pack.

Management request

It is respectfully requested that the competent units be directed to: (1) confirm the governing values for fees, the admission cycle, and undergraduate and graduate requirements (D-01 to D-05); (2) authorise the actions within the Admissions Office's remit — interim cycle notice, withdrawal of the 2018 guide, contact details, and the 48 editorial corrections (D-02, D-06, D-07, D-09); (3) designate owners for implementation and publication verification (D-08, D-10); and (4) note that closure will be recorded only after publication and read-back verification.
