Admissions Office Webpages Independent Content Review

Prince Mohammad Bin Fahd University (PMU) — Prepared for Management Review

Prepared for: Mr. Radhi H. Alkhaldi, Associate Director of Enrollment

Prepared by: Nader Al Farhan, Administrative Assistant | Student Affairs

Root source: https://www.pmu.edu.sa/admission/admission

Observation: 2026-10-21 10:22–10:45 (full capture) · 2026-10-22 14:48 (P0 re-confirmation) — Asia/Riyadh (baseline reads 10–11 Oct 2026)

Companion register: L2-01_Evidence_and_Follow-up_Pack_EN.xlsx

Status: Prepared for Management Review — not an approval, publication confirmation or closure certificate

Read-only review of published content. No website content was changed, no forms were submitted and no applicant systems were accessed.

1. Executive summary

47	131	4 | 21	14	10
eligible resources examined	consolidated findings	P0 | P1 findings	proven published conflicts	decisions requested

The published content of the Admissions Office page, its five sections, their 35 direct destinations and the files and fee pages needed for verification were reviewed line by line and re-checked on the live website on 21 October 2026. The review recorded 131 findings (4 P0, 21 P1, 50 P2, 56 P3), including 14 proven published conflicts, together with 8 evidenced strengths. The content is substantial and largely structured by applicant category; the principal weaknesses lie in currency, consistency across pages and the absence of a single authoritative source for fees and requirements.

Principal findings (P0)

- **Admissions calendar shows only an expired cycle** (F-014) — The Admissions Calendar displays only the Fall 2026-2027 cycle, all of whose dates have passed (the last being the start of classes on 30 August 2026), with no announcement of the next cycle or of the closure of admissions. In addition, the announcement of admission results (19–21 July 2026) begins one day before the deadline for submitting IELTS/TOEFL scores and transfer applicants' documents (20 July 2026), with no explanation of how this is handled.
- **Conflicting application fees for transfer and visiting students** (F-039) — The International Students page states that the application fee for transfer and visiting students is SAR 500 excluding VAT, whereas the Transfer Admissions page, the Visiting Students page and the official fees page state that the undergraduate application fee is SAR 950 including VAT. The same page also states SAR 950 including VAT in its Freshman Students section.
- **Conflicting College of Medicine application fee** (F-052) — The College of Medicine page states that the application fee is SAR 1000 including VAT, whereas the medical programme fees page states SAR 1,150 including VAT (equal to SAR 1000 plus 15%). The other undergraduate pages and the Apply page, which state SAR 950, do not indicate that the College of Medicine has a different fee.
- **International freshman criteria require discontinued SAT II test** (F-040) — For Computer Science and Engineering majors, the International Students page requires the SAT II test with a 30% weighting, a test discontinued by its administering body (College Board) in 2021. It also omits the higher minimum secondary-school GPA (85%) and the SAT alternative with a score of 1200 that are published on the Computer Science and Engineering requirements page and the SAT page.

Also material (P1, selected)

- **Conflicting IELTS minimum between application form and programme pages** (F-073)
- **Conflicting IELTS and TOEFL thresholds for the International Business Law MA** (F-100)
- **Engineering Management requirements page contains another university's content** (F-097)
- **Linked Web Admission Guide is outdated and conflicts with current fees** (F-036)
- **Footer "Academic Calendar" link opens the 2021/2022 calendar** (F-005)
- **Broken scholarship and GPA-calculator links in the side menu** (F-035)
- **Undergraduate admission requirements hidden by immediate redirect** (F-023)

Decisions requested from management

Ten institutional decisions are set out in Section 9 (D-01 to D-10). The most time-sensitive are D-01 (application fees and VAT basis by applicant category), D-02 (current admission cycle and interim notice) and D-03/D-04 (undergraduate and graduate eligibility and English requirements). Where pages conflict, this report does not

select a value: each conflict is stated as "Proven published conflict; the correct policy requires institutional confirmation."

Of the six amendments requested in this correspondence on 26 October 2025, 3 are NOT_PUBLISHED and 3 are PARTIALLY_PUBLISHED (Annex A); none is fully published.

Audit status: NOT READY FOR VERIFIED CLOSURE
Inventory and examination of the discovered scope are complete; closure is not possible while conflicting policy values await institutional confirmation, two items remain unverifiable from published content, no applicant data or feedback was available, and no correction has yet been published. The package is Prepared for Management Review.

2. Scope, date, method and limits

Scope

Start point: https://www.pmu.edu.sa/admission/admission. In scope: the five sections listed on the root page (Future Students; International Students' Office; Graduate Admissions; Undergraduate Admissions; Undergraduate Placement Tests), every destination they link to directly, the bilingual content of /apply, the public landing page of the application portal, the two linked PDF guides, and nine adjacent official pages used only to verify specific statements (fee schedules, the generic graduate application form, the MIBL application form, the list of majors, the 2021/2022 calendar opened by the footer link, and the preparatory study plan). Global header and footer menus were not treated as admissions branches.

Method

- Discovery and capture: automated Chromium (Playwright) navigation from the root page, read-only GET requests only; full-page captures and visible/hidden text of every page; status checks of all 434 unique URLs linked from in-scope pages.
- Line-by-line reading of every content unit against six axes: language, accuracy, function, organisation, consistency and applicant experience; PDF text extraction with visual checks of informative images.
- Evidence: each finding quotes the published text verbatim with its URL and location; each proven conflict is documented by at least two sources; key findings carry highlighted screenshots of the live page taken on 21 Oct 2026.
- Re-verification: on 21 Oct 2026 the verbatim text of every finding was re-matched against a fresh capture; changed items are flagged rather than silently removed.
- Classification and priority follow the nine-type classification of the Master Directive and the P0–P3 scale (Definitions sheet); verification statuses are VERIFIED, BLOCKED or NOT_APPLICABLE. AI-assisted tools (Claude) supported reading, matching, translation and drafting; results were checked against the captured evidence.

Limits and exclusions

- No security, vulnerability, performance or load testing; no form submission or data entry; no login to the applicant portal or internal systems; no access to applicant records; no change to the website; no contact with staff or applicants.
- The portal was reviewed only as a published referral destination (public landing page); its registration labels were read from the published script bundle, and four labels loaded dynamically could not be verified.
- External, social-media and internal hosts returned no response from the review network (status 000); this is recorded as an environment limit, not as a public failure. The http:// portal link (F-131) is recorded as unverifiable for the same reason.
- The staff list linked as "Contact Us" was checked only for its destination because it contains personal data.
- Published procedures were assessed as stated; their operational application was not verified.

3. Coverage

Measure	Value
Root-page link placements / unique destinations	36 / 35
Eligible resources	47
Fully examined	43
Partially examined	4
Unreachable / not examined	0 / 0
Coverage: full | any examination	91.5% | 100.0%
Link instances / unique URLs checked	5259 / 434
Confirmed HTTP 404	3
PDF files / pages read	2 / 71
Language pairs compared	10

Coverage percentages refer to the eligible resources discovered from the root page; they are not a claim about the whole website. Partial items: staff list (personal data), portal (public page only), Aptis guide images, and the preparatory study plan (read 11 Oct, not re-read).

Findings by category and priority

Category	P0	P1	P2	P3	Total
Verified error in published information	0	3	5	31	**39**
Conflict between two or more sources	2	7	5	0	**14**
Outdated or expired content	2	2	3	0	**7**
Missing information important to applicants	0	6	22	13	**41**
Arabic–English difference	0	0	1	0	**1**
Ambiguity in procedures or fees	0	3	8	9	**20**
Cannot currently be verified	0	0	6	3	**9**
Total	**4**	**21**	**50**	**56**	**131**

Re-verification on 21 Oct 2026: 125 still published as quoted; 2 partly changed; 1 appears resolved (F-019); 2 not verifiable from published content; 1 not re-tested (mobile layout).

4. Proven strengths

ID	Strength	Evidence (verbatim)
S-01	Undergraduate CS & Engineering requirements are published as a structured table of minimum marks and weights, which allows applicants to self-assess eligibility. Admissions Requirements , Computer Science and Engineering Majors	HS GPA out of 100 ≥ 85 40% Qudrat ≥ 65 30% Tahseely ≥ 65 30%
S-02	The official fees page states the application fee, its VAT basis (15% included) and non-refundability explicitly, providing a natural single reference for fee statements. Other Fees (Tuition & Fees)	Admission Application Fees- Undergraduate Programs Fees (includes the VAT 15%) Non-refundable SAR 950
S-03	The /apply page presents undergraduate requirements in parallel English and Arabic, and the numerical values match in both languages (see Language Comparison). apply	IELTS Academic: Overall 6.0, Writing 5.5 TOEFL iBT: Overall 83, Writing 19
S-04	The Admissions Calendar distinguishes application channels by applicant category (Saudi via Qabool; non-Saudi via Study in Saudi) and lists dated milestones. Admissions Calendar	For Saudi Students: Apply online through Qabool platform ... For non Saudi Students: Apply online through Study in Saudi platform
S-05	The TOEFL page specifies score validity, excluded test formats and the institutional score-reporting code, which reduces avoidable submission errors. TOEFL	Two years from the date of TOEFL iBT test ... (online or home edition is not accepted) ... PMU DI code: 6993
S-06	The College of Medicine page publishes its selection model (weighted score and interview weights) and a minimum score, which supports transparency of a competitive admission decision. Admissions to the College of Medicine	Total weighted score* 60% Interview 40% *20% high school + 40% Qudrat + 40% Tahseely
S-07	A bilingual Admission Query form gives applicants a direct written channel to the Admissions Office. Admission Query	مرحباً بكم بجامعة الأمير محمد بن فهد، مكتب القبول يسعد بالإجابة على إستفساراتكم
S-08	The graduate fees page states VAT treatment for Saudi students explicitly and publishes PMU-alumni and non-alumni tuition side by side. Post Graduate Fees	A 15% VAT will be charged for Tuition and Fees for Non-Saudi Students ... Saudi Students do not pay VAT for Tuition

5. Material findings, impact and evidence

All P0 and P1 findings are summarised below; the complete set of findings, with full evidence, is in the register (Findings and Evidence sheets).

P1 F-005 — Footer "Academic Calendar" link opens the 2021/2022 calendar

Admissions Office · Outdated or expired content · Decision: D-02 · Evidence: E-005-1 · Re-verified 21 Oct 2026 — still published

The «Academic Calendar» link in the footer of the Admissions Office page opens the 2021/2022 academic calendar rather than the current year's calendar, so applicants obtain dates that expired four years ago.

> Academic Calendar → ../Admission/academic_calendar_2021_2022_ro.aspx

Proposed action: Point the link to the approved academic calendar for the current year (or to a stable calendar page updated annually), while retaining previous calendars in a dated archive.

P1 F-012 — Programme lists incomplete and inconsistent across admissions pages

Degrees & Programs · Conflict between two or more sources · Decision: D-05 · Evidence: E-012-1, E-012-2, E-012-3 · Re-verified 21 Oct 2026 — still published

The Degrees & Programs page does not include the College of Medicine programme or the Master of Engineering Management (EMGMS), although each has an admissions page, nor the Master of Engineering in Innovation, Sustainability and Entrepreneurship, which is listed with its fees on the Graduate Fees page without any entry in the graduate admissions list. The lists of graduate programmes also differ between the Admissions Office page, the Graduate Programs page and the Degrees & Programs page.

Proven published conflict; the correct policy requires institutional confirmation.

> College of Law … B.A. in Law … Graduate Programs ; Admissions to the EMGMS Program ; Master of Engineering in Innovation, Sustainability, and Entrepreneurship (33) | SAR 80,000 | SAR 80,000

Proposed action: Adopt a single, unified list of programmes open for admission that feeds all pages from one source, once the owning academic units have confirmed the programmes actually available (including the Medicine programme, with a statement of its availability to male and female students, and the Innovation, Sustainability and Entrepreneurship programme).

P0 F-014 — Admissions calendar shows only an expired cycle

Admissions Calendar · Outdated or expired content · Decision: D-02 · Evidence: E-014-1 · Re-verified 21 Oct 2026 — still published

The Admissions Calendar displays only the Fall 2026-2027 cycle, all of whose dates have passed (the last being the start of classes on 30 August 2026), with no announcement of the next cycle or of the closure of admissions. In addition, the announcement of admission results (19–21 July 2026) begins one day before the deadline for submitting IELTS/TOEFL scores and transfer applicants' documents (20 July 2026), with no explanation of how this is handled.

> Fall 2026-2027 … Last day to submit IELTS or TOEFL iBT | 2026-07-20 … Last day for Transfer applicants to submit documents in person | 2026-07-20 … First day of classes | 2026-08-30 … Announcement of admission results through Qabool platform | From July 19 to July 21, 2026

Proposed action: Publish the calendar for the next cycle, or an explicit statement that admissions are closed together with the opening date of the next cycle, and order the items chronologically, stating the applicant category to which each date applies; this requires the Admissions Office to approve the dates of the next cycle.

P1 F-020 — Admission Query form lacks privacy notice and alternative contacts

Admission Query · Missing information important to applicants · Decision: D-07 · Evidence: E-020-1 · Re-verified 21 Oct 2026 — still published

The Admission Query form collects name, email address and mobile number without any visible privacy notice, and the page provides no alternative email address or telephone number for the Admissions Office and no expected response time; the Graduate Studies contact page is likewise limited to the office and an email address, with no telephone number.

> Welcome to PMU, the Admissions Office is glad to answer your inquiries. … Name [الأسم]: * … Email [البريد الإلكتروني]:* … Mobile number [رقم الجوال]:*

Proposed action: Add a privacy notice after review by the competent compliance unit, and add the official email address and telephone number of the Admissions Office and the expected response time beside the form.

P1 F-023 — Undergraduate admission requirements hidden by immediate redirect

apply · Missing information important to applicants · Decision: D-03 · Evidence: E-023-1 · Re-verified 21 Oct 2026 — still published

The /apply page contains, in both languages, the minimum scores and weighted percentages for undergraduate programmes, but it redirects immediately to the application portal, so applicants do not see it, and the portal does not display these requirements. The published minimum scores equate to a weighted percentage of 72% for non-engineering majors and 73% for Engineering, Artificial Intelligence, Computer Science and Architecture, without this being stated explicitly.

> Bachelor's Programs — Admission Requirements … High school 80% or higher … Qudrat 60% or equivalent SAT 1 score … High school average: 85% or higher … Qudrat 65% or higher … Tahseely 65% or higher

Proposed action: Publish the admission requirements on a visible page linked to the application pathway, and have the Admissions Office confirm the approved minimum weighted percentage and decide whether the hidden content should be retained or deleted.

P1 F-024 — Conflicting descriptions of the SAT 1 (1200) alternative

apply · Conflict between two or more sources · Decision: D-03 · Evidence: E-024-1, E-024-2, E-024-3 · Re-verified 21 Oct 2026 — still published

The SAT 1 alternative with a score of 1200 is described in three different ways: on /apply as an alternative to the General Aptitude and Achievement tests for all applicants to Engineering, Artificial Intelligence, Computer Science and Architecture majors; on the SAT page as restricted to holders of international secondary certificates; and on the Computer and Engineering Majors page as an alternative to the Achievement test only.

Proven published conflict; the correct policy requires institutional confirmation.

> /apply: "a SAT 1 total score of 1200 is accepted in place of both Qudrat and Tahseely" | SAT: "Students with international high school certificate might submit SAT with minimum score of 1200 instead of Qudrat and Tahseely tests" | CS/Eng: " (SAAT – Tahseely) or SAT 1 (1200)"

Proposed action: The Admissions Office should determine the approved rule for the SAT alternative (the eligible category and the tests it replaces), and then publish it in a single wording across all pages.

P1 F-030 — Application portal and website calendar present conflicting information

welcome · Conflict between two or more sources · Decision: D-02 · Evidence: E-030-1, E-030-2 · Re-verified 21 Oct 2026 — still published

The application portal displays the statement "no events currently published", whereas the Admissions Calendar page on the website publishes the dates of the Fall 2026-2027 cycle; the portal footer also carries the year 2022.

Proven published conflict; the correct policy requires institutional confirmation.

> Admission Calendar | No events are currently published. Please check back later. ... 2022 © PMU ; Admissions Calendar page: "Fall 2026-2027 Undergraduate Admission Calendar"

Proposed action: Adopt a single source for the admissions calendar from which dates are displayed on both the portal and the website, and update the footer year.

P1 F-035 — Broken scholarship and GPA-calculator links in the side menu

Admissions side menu (shared) · Verified error in published information · Decision: D-06 · Evidence: E-035-1 · Partly changed since 11 Oct 2026 — residual issue remains

Four links in the side menu (the three scholarship pages and the GPA calculator) return a 404 error, and the Financial Aid page contains no content.

> Sponsored Scholarship Programs ; MOHE Scholarships ; International Students Scholarships → "404 - File or directory not found"

Proposed action: Repair the links or remove them from the menu, and complete the Financial Aid page or remove it after confirmation from the owning unit.

P1 F-036 — Linked Web Admission Guide is outdated and conflicts with current fees

Admissions side menu (shared) · Outdated or expired content · Decision: D-01, D-06 · Evidence: E-036-1 · Re-verified 21 Oct 2026 — still published

The link opens an online application guide dated December 2018 and bearing a 2011 copyright notice. It describes login with a Login ID and PIN, covers only two application types (new and transfer), and includes a score table that lists discontinued tests (TOEFL Paper and TOEFL Computer) and an SAT score range inconsistent with that test's scale (50.00–99.99). On its payment page (p. 20) it states an application fee of "SR 500.00 (non refundable)" without reference to VAT or the year of applicability, which conflicts with the fees currently published for some categories (SAR 950 for transfer and international visiting students, and SAR 1,150 for the College of Medicine). It refers users to the IT email address for assistance, and its final page contains names and direct telephone numbers of staff members (2018). The current application portal uses a different interface ("Student Login" and "New Student? Register!").

> PMU WEB ADMISSION GUIDE ... Copyright © 2011 ... For assistance please contact it@pmu.edu.sa ... TOEFL Paper valid range is from 001 to 999 ... TOEFL Computer valid range is from 040 to 300 ... SAT valid range is from 50.00 to 99.99 ... Application Fee SR 500.00 (non refundable)

Proposed action: Withdraw the guide from the menu or replace it with an updated guide describing the current application portal, removing the outdated personal contact details.

P0 F-039 — Conflicting application fees for transfer and visiting students

International Students' Office · Conflict between two or more sources · Decision: D-01 · Evidence: E-039-1, E-039-2, E-039-3 · Re-verified 21 Oct 2026 — still published

The International Students page states that the application fee for transfer and visiting students is SAR 500 excluding VAT, whereas the Transfer Admissions page, the Visiting Students page and the official fees page state that the undergraduate application fee is SAR 950 including VAT. The same page also states SAR 950 including VAT in its Freshman Students section.

Proven published conflict; the correct policy requires institutional confirmation.

> [الطلاب الدوليون] Pay a non-refundable application fee of SAR 500 (excl. VAT) upon submission of documents | [التحويل,] [الطلاب الزائرون] Pay a non-refundable application fee of SAR 950 (incl. VAT) upon submission of documents | [Other Fees] Admission Application Fees- Undergraduate Programs ... Non-refundable SAR 950

Proposed action: Confirm a single application fee amount and a single VAT treatment for each applicant category through a decision by Financial Affairs and the Admissions Office, then align all pages, including the International Students page, to the approved value.

P0 F-040 — International freshman criteria require discontinued SAT II test

International Students' Office · Outdated or expired content · Decision: D-03 · Evidence: E-040-1 · Re-verified 21 Oct 2026 — still published

For Computer Science and Engineering majors, the International Students page requires the SAT II test with a 30% weighting, a test discontinued by its administering body (College Board) in 2021. It also omits the higher minimum secondary-school GPA (85%) and the SAT alternative with a score of 1200 that are published on the Computer Science and Engineering requirements page and the SAT page.

> [الطلاب الدوليون] Acceptable secondary school GPA *80% or equivalent ... Computer Science & Engineering Majors: Secondary School 40% SAT I 30% SAT II 30% | [الحاسب والهندسة] HS GPA out of 100 | ≥ 85 | 40% | [SAT] might submit SAT with minimum score of 1200 instead of Qudrat and Tahseely tests

Proposed action: Remove SAT II and replace it with the approved alternative (for example, the SAT with a score of 1200 in place of Qudrat and Tahseely, if confirmed), and add the minimum thresholds specific to these majors or refer to the Computer Science and Engineering requirements page, subject to approval by the Admissions Office and the relevant colleges.

P1 F-041 — No published application route or deadline for non-Saudi applicants

International Students' Office · Missing information important to applicants · Decision: D-02 · Evidence: E-041-1 · Re-verified 21 Oct 2026 — still published

The Admissions Calendar shows the application route for non-Saudi applicants via the "Study in Saudi" platform with the status "Closed" and no date, and the International Students page states neither the application route nor its deadline, indicating only that the application is completed entirely online.

> [الطلاب الدوليون] The application process can be completed entirely online. | [تقويم القبول] For non Saudi Students: Apply online through Study in Saudi platform: https://studyinsaudi.sa/ar ... Closed

Proposed action: Publish the approved application route for non-Saudi applicants and its opening and closing dates for the next cycle on both the International Students page and the Admissions Calendar.

P1 F-042 — Missing SAT minimum and empty Transportation section for international students

International Students' Office · Missing information important to applicants · Decision: D-03 · Evidence: E-042-1 · Re-verified 21 Oct 2026 — still published

The International Students page requires an "acceptable SAT I" without specifying a minimum, whereas the SAT page sets a minimum of 1200 for holders of international secondary certificates. In addition, the Transportation section shows only its heading with no content.

> [الطلاب الدوليون] Acceptable SAT I … Transportation Transportation Campus Life | [SAT] might submit SAT with minimum score of 1200

Proposed action: State the approved minimum SAT score on the page (1200, if confirmed by the Admissions Office), and complete the Transportation section with actual information or remove it.

P0 F-052 — Conflicting College of Medicine application fee

Admissions to the College of Medicine · Conflict between two or more sources · Decision: D-01 · Evidence: E-052-1, E-052-2 · Re-verified 21 Oct 2026 — still published

The College of Medicine page states that the application fee is SAR 1000 including VAT, whereas the medical programme fees page states SAR 1,150 including VAT (equal to SAR 1000 plus 15%). The other undergraduate pages and the Apply page, which state SAR 950, do not indicate that the College of Medicine has a different fee.

Proven published conflict; the correct policy requires institutional confirmation.

> [كلية الطب] Pay a non-refundable application fee of SAR 1000 (incl. VAT) upon submission of documents | [Medical fees] SAR 1,150 (VAT inclusive) | [القبول في البكالوريوس, البرنامج التحضيري–الحاسب والهندسة] SAR 950 (incl. VAT)

Proposed action: Confirm the approved amount and VAT treatment with Financial Affairs and the College of Medicine, align the two pages to the approved value, and indicate on the undergraduate pages and the Apply page that the different fee applies to College of Medicine applicants.

P1 F-053 — Inconsistent application channel across undergraduate pages

Admissions to the College of Medicine · Ambiguity in procedures or fees · Decision: D-02 · Evidence: E-053-1 · Re-verified 21 Oct 2026 — still published

The College of Medicine page refers applicants to the national "Qabool" platform (uap.sa), consistent with the Admissions Calendar, whereas the other undergraduate pages refer to the University's own "Apply Now" link; the approved channel for each applicant category is therefore unclear.

> [تقويم القبول] For Saudi Students: Apply online through Qabool platform: https://www.uap.sa/ | [القبول في البكالوريوس] Apply online based on the admissions calendar (Apply Now)

Proposed action: Determine the approved application channel for each category (Saudi and non-Saudi applicants) through an Admissions Office decision, and state it in a consistent form on all undergraduate pages.

P1 F-054 — College of Medicine minimum scores inconsistent with weighted-score threshold

Admissions to the College of Medicine · Verified error in published information · Decision: D-03 · Evidence: E-054-1 · Re-verified 21 Oct 2026 — still published

Under the published formula, the published minimums (secondary school 95%, Qudrat 80 and Tahseely 80) yield a weighted score of only 83, which is below the stated minimum (86). It is also unclear which score must reach 86, and whether a single SAT 1 score (1300) substitutes for both Qudrat and Tahseely, as no SAT 1 minimum is stated as an alternative to Qudrat.

> [كلية الطب] Copy of secondary school certificate or equivalent (95%) ... (Qudrat) (80) or equivalent (SAT 1) ... (SAAT – Tahseely) (80) or equivalent (SAT 1) 1300 ... *20% high school + 40% Qudrat + 40% Tahseely were 86 is the minimum acceptable score

Proposed action: Confirm the minimum thresholds and formula approved by the College of Medicine and the Admissions Office, rephrase the note to “where 86 is the minimum acceptable total weighted score”, and clarify the conditions for using SAT 1 as an alternative.

P1 F-059 — TOEFL iBT minimum not published on undergraduate admission pages

Direct Admissions from Secondary School · Missing information important to applicants · Decision: D-03 · Evidence: E-059-1 · Re-verified 21 Oct 2026 — still published

The undergraduate pages accept an “equivalent TOEFL iBT” or “acceptable scores” without stating the minimum, whereas the Apply page and the graduate studies pages specify an overall score of 83 and 19 in writing. In addition, the admission criteria on the Direct Admissions page refer only to IELTS, and the Visiting Students page alternates between “home institute” and “home institution”.

> [القبول المباشر] or equivalent TOEFL iBT (Learn more) | [التحويل] or equivalent TOEFL iBT with acceptable scores (read more...) | [الطلاب الزائرون] or equivalent to TOEFL iBT (learn more...), if the medium of instruction at the home institute is other than English | [/apply] TOEFL iBT: Overall 83, Writing 19

Proposed action: Publish the approved TOEFL iBT minimum (83 overall and 19 in writing, if confirmed by the Admissions Office and the Testing Centre) on all undergraduate pages or link them to a single equivalence table, and use “home institution” consistently.

P1 F-070 — Inconsistent list of majors with special admission requirements

Admissions Requirements , Computer Science and Engineering Majors · Conflict between two or more sources · Decision: D-03 · Evidence: E-070-1, E-070-2, E-070-3 · Re-verified 21 Oct 2026 — still published

The list of majors with special requirements on the Computer and Engineering majors requirements page does not include the Artificial Intelligence major, whereas the SAT page and the application page include it. In addition, the admission criteria sentence and the link title on the Undergraduate page are limited to “Computer and Engineering” although Architecture is also covered, and the International Students page divides majors into “non-engineering” and “Computer and Engineering” without listing them.

Proven published conflict; the correct policy requires institutional confirmation.

> [الحاسب والهندسة] These majors are Architecture, Computer Science, Computer Engineering, Software Engineering ... to Computer Science or Engineering majors | [SAT] Software Engineering, Artificial Intelligence | [القبول في البكالوريوس] Computer Science and Engineering Majors Admission Requirements | [الطلاب الدوليون] Non-Engineering Majors:

Proposed action: The Admissions Office should approve a single definitive list of majors with special requirements and standardise it, together with the name of the group, on the Computer and Engineering majors requirements page, the SAT page, the application page, the Undergraduate page and the International Students page, listing the majors within each group.

P1 F-073 — Conflicting IELTS minimum between application form and programme pages

Graduate Admissions · Conflict between two or more sources · Decision: D-04 · Evidence: E-073-1, E-073-2, E-073-3 · Re-verified 21 Oct 2026 — still published

The “Application Form” links for four programmes (the PhD in Mechanical Engineering, the Master’s in Civil Engineering, the Master’s in Electrical Engineering and the Master’s in Interior Design) lead to a general application form that requires an IELTS score of 6.5, whereas the requirements pages of these same programmes require a score of 6.0.

Proven published conflict; the correct policy requires institutional confirmation.

> [برامج الدراسات العليا] "Application Form" → application_form_gr | [نموذج التقديم العام] "minimum scores of 6.5 overall and 5.5 in each skill" | [صفحات متطلبات البرامج الأربعة] "minimum scores of 6.0 overall and 5.5 in each skill"

Proposed action: Confirm the governing IELTS minimum for each programme with the Deanship of Graduate Studies, then either link each programme to its own application form or align the general form and the programme pages to the approved value.

P1 F-074 — Engineering Management Master’s programme listed without an application route

Graduate Admissions · Ambiguity in procedures or fees · Decision: D-05 · Evidence: E-074-1 · Re-verified 21 Oct 2026 — still published

The Master’s in Engineering Management appears on the main Admissions Office page and has published requirements and fees pages, but it is not listed on the Graduate Programs page and has no application link or application form.

> [Admissions Office page] Admissions to the EMGMS Program … [Graduate Admissions] Admissions to the Master of Arts (MA) in International Business Law Program … [Sidebar] Apply for EMBA … Apply for MBA … Apply for MSHD … Apply for MSME

Proposed action: The Deanship of Graduate Studies should determine whether the programme is currently offered: if it is, add it to the Graduate Programs page with an application link; if not, remove it from the Admissions Office page and from the fee schedule.

P1 F-084 — Ambiguous eligibility conditions for the PhD in Business Administration

Admissions Requirements , Admissions to the PhD in Business Administration · Ambiguity in procedures or fees · Decision: D-04 · Evidence: E-084-1 · Re-verified 21 Oct 2026 — still published

The eligibility sentence contains a double negative (“not from another discipline”) that reverses the intended meaning, and it states three GPA thresholds (2.80, 3.00 and 3.20) without specifying the case to which each applies.

> Otherwise, if the master degree is not from another discipline they must successfully attend and complete with minimum GPA 2.80 12 credit hours of MBA … Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A”) or they must have a minimum cumulative GPA of 3.20

Proposed action: Rephrase the conditions as separate, clear items specifying the required GPA for each case (Master’s discipline and stage of study), after approval by the Deanship of Graduate Studies.

P1 F-097 — Engineering Management requirements page contains another university's content

Admissions Requirements, Master of Science in Engineering Management (EMGMS) · Verified error in published information · Decision: D-04 · Evidence: E-097-1 · Re-verified 21 Oct 2026 — still published

The admission requirements page for the Master's in Engineering Management contains text referring to a language centre belonging to another university (UA CESL), requires an IELTS score of 7 against a TOEFL iBT score of 79, which are not equivalent, and refers to the older PBT test. Its requirements also differ from those of the other engineering programmes (a GPA of 3.00 instead of 2.50, and three letters of recommendation instead of two), and it cannot be relied upon as the University's approved requirements.

> (minimum 3.00 out of 4.00) … Letters of Recommendation (Minimum 3) … TOEFL – minimum of 79 iBT … IELTS – minimum composite score of 7, with no subject area below a 6 … Graduate English Language Endorsement from UA Center for English as Second Language (CESL)

Proposed action: Remove the transferred content immediately and replace the programme's requirements in full (GPA, language tests and number of recommendation letters) with those approved by the Deanship of Graduate Studies and the College of Engineering.

P1 F-099 — Incomplete admission requirements for the International Business Law Master's

Admissions to the Master of Arts (MA) in International Business Law Program · Missing information important to applicants · Decision: D-04 · Evidence: E-099-1 · Re-verified 21 Oct 2026 — still published

The page does not state the minimum GPA numerically, assigns a weight of 30% to the written test without any description of it in the admission criteria, and includes neither a list of required documents nor an application link within the page content.

> A minimum (Very Good) in Bachelor's Degree … In selecting applicants, the following weight is assigned to each admission requirement … 30% for the written test.

Proposed action: Complete the requirements by stating the minimum GPA numerically, describing the written test (its content, date and registration method), and adding the list of required documents and the application link.

P1 F-100 — Conflicting IELTS and TOEFL thresholds for the International Business Law MA

Admissions to the Master of Arts (MA) in International Business Law Program · Conflict between two or more sources · Decision: D-04 · Evidence: E-100-1, E-100-2 · Re-verified 21 Oct 2026 — still published

The programme requirements page requires an IELTS score of 6.5, whereas the application form page for the same programme requires 6.0, and the remaining graduate pages require 6.0. The page treats TOEFL iBT 83 as equivalent to IELTS 6.5, whereas the other pages treat it as equivalent to 6.0.

Proven published conflict; the correct policy requires institutional confirmation.

> [MIBL requirements] A valid IELTS certificate (Academic version) with minimum scores of 6.5 overall and 5.5 in each skill or equivalent TOEFL iBT minimum scores of 83 overall … [MIBL application form] Submit original IELTS (Academic version) certificate with minimum scores of 6.0 overall

Proposed action: Confirm the approved score for the programme with the Deanship of Graduate Studies, then align it across the requirements and application pages, and adjust the equivalent TOEFL score accordingly.

P1 **F-117 — Conflicting accepted tests for direct Core Program entry**

Aptis Placement Test · Conflict between two or more sources · Decision: D-03 · Evidence: E-117-1, E-117-2, E-117-3 · Re-verified 21 Oct 2026 — still published

The Aptis page requires IELTS alone for direct entry to the Core Program, whereas the TOEFL page and the application page (/apply) also accept a TOEFL iBT result (83 overall and 19 in writing).

Proven published conflict; the correct policy requires institutional confirmation.

> If a candidate feels that he/she is eligible for direct entry into the Core Program, he/she will be required to take the IELTS through the PMU Testing Center or any other authorized testing center

Proposed action: Confirm with the Admissions Office which tests are approved for direct entry to the Core Program (including whether TOEFL iBT is accepted and at what minimum), then align the Aptis, IELTS, TOEFL and application pages with the approved position, with cross-references between them.

Evidence figures (live pages, 21 October 2026)

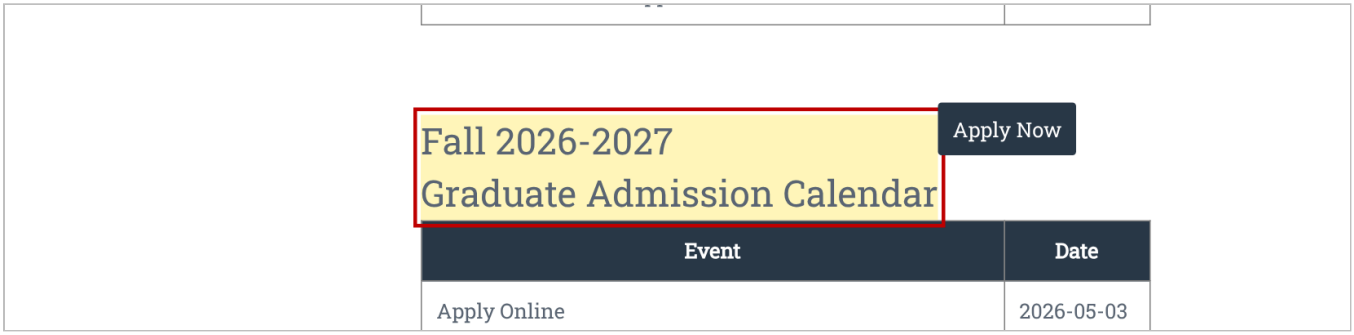

Figure 1 (EV-01, F-014): Admissions Calendar — the only published cycle is Fall 2026-2027. Highlight added by the reviewer; captured 2026-10-21.

6. Quality of published information, procedures and the applicant information journey

Assessment is based on published content. It describes how the information journey reads to an applicant; it does not report actual applicant experience, and it does not infer how procedures are applied internally.

Journey step	Observation (content-based)	Findings
Choose a programme	Programme lists differ between the root page, Degrees & Programs, Graduate Programs, International Students and the fees pages; Medicine, EMGMS and one priced master's programme are missing from some lists; B.S. Chemical Engineering appears in programme lists but not in the special-requirements list.	F-012, F-043, F-048, F-070, F-074, F-104
Understand requirements	Requirements are spread across /apply (hidden by an immediate redirect), the undergraduate, CS & Engineering, international and test pages. Substitution rules (SAT 1 1200), English thresholds (IELTS 6.0/6.5; TOEFL) and the discontinued SAT II differ between pages.	F-023, F-024, F-040, F-059, F-073, F-100, F-117
Find fees and dates	Application fees conflict (SAR 500/950; 1,000/1,150); the only admission calendar is expired; the footer calendar link opens 2021/2022; payment schedules for completed terms remain listed.	F-039, F-052, F-014, F-005, F-111
Apply and follow up	Channels differ (Qabool for Medicine; PMU portal elsewhere); the portal states that no events are published; "Contact Us" leads to a staff list without an Admissions contact; the enquiry form shows no privacy notice. The journey was followed only to the portal boundary.	F-053, F-030, F-002, F-034, F-020

Assessment by quality dimension

- Accuracy and currency — weakest dimension: an expired cycle, a 2018 guide, a 2021/2022 calendar link, a discontinued test and conflicting fees.
- Consistency — the same requirement is restated on several pages with different values or wording; there is no single source of truth for fees, tests or programme lists.
- Completeness — key items are missing in places (Admissions contact details, TOEFL minimum on undergraduate pages, MIBL GPA and documents, Aptis scores and fees).
- Clarity and organisation — content is generally organised by applicant category, which is a sound structure; editorial errors are frequent but low in impact.
- Arabic–English — /apply mirrors English and Arabic with matching values; no separate Arabic version of the section was found.

7. Data and applicant feedback

No published aggregate admissions data (application volumes, processing times, conversion) and no published or supplied applicant-feedback summaries were found within the inventoried scope. Consequently no quantitative indicator is reported and no rate was calculated. Statements about the applicant journey in this report are content-based observations, not reported experience.

Proposed design for future evidence (not executed)

1. Web analytics per admission cycle: page views, exits and internal search terms for admissions pages.
2. Enquiry log: monthly categorisation of Admission Query topics to show which information applicants cannot find.
3. Short anonymous post-application survey (six items: findability of requirements, fees, dates and channel; clarity; confidence).
4. Review of the results before each cycle opens. Requires separate authorisation, privacy review and owner approval.

8. Recommendations for correction and development, by priority

Priority	Recommendation	Expected benefit (to be measured)
P0	Interim notice on the admission cycle; single fee reference by applicant category; removal or replacement of the SAT II requirement after confirmation.	Prevents applicants acting on expired dates or wrong fees (to be measured: zero conflicting statements on re-read).
P1	Approved undergraduate and graduate admission matrices referenced by every page; removal of non-PMU text (EMGMS); withdrawal or replacement of the 2018 guide; one authoritative programme list; official Admissions contact block and privacy notice.	Expected to reduce contradictory guidance and enquiries (to be measured through the enquiry log).
P2	Batch of approved editorial corrections; accessibility baseline (language attribute, image alternatives, landmarks, mobile reflow, https links); organisation of content by applicant category with a short FAQ.	Improves clarity and access (to be measured by automated re-check and analytics).
P3	Named owner per page, pre-cycle review, visible "last reviewed" date; applicant information-experience survey design.	Sustains accuracy over cycles (to be measured: proportion of pages reviewed before each cycle).

Recommendations are proposals and do not represent approved decisions or management commitments. Where a recommendation depends on a policy value, it is conditional on the decision listed in Section 9.

9. Institutional decisions requested

ID	Question	Options	Proposed owner	Findings
D-01	**Application fees, VAT basis and test fees** Which application fee applies to each applicant category (international transfer/visiting, Medicine, undergraduate, graduate), on what VAT basis and from which effective date? What is the current Aptis (and retake) fee?	A. Adopt the official Other Fees schedule as the single source and link all pages to it; B. Confirm category-specific exceptions in writing and publish them in the schedule.	Admissions Office + Financial Affairs	F-039, F-052, F-026, F-036, F-119, F-104, F-105, F-108, F-111
D-02	**Current admission cycle, calendar and application channels** Is an admission cycle currently open (e.g. Spring 2027)? Which dates, channels (Qabool, Study in Saudi, PMU portal) and orientation date apply, and what should be shown while no cycle is open?	A. Publish the next cycle with dates; B. Publish an interim notice stating that applications are closed and when the next cycle opens.	Admissions Office (with Registrar for the academic calendar)	F-014, F-015, F-005, F-030, F-041, F-053, F-016
D-03	**Undergraduate eligibility, test equivalences and weightings** Confirm for each applicant category: accepted tests (SAT I/II, Tahseely, IELTS, TOEFL), minimum scores, SAT 1 (1200) substitution rules, minimum weighted totals (including the values requested on 26 Oct 2025), identity documents and attestation authority.	A. One approved undergraduate admission matrix referenced by all pages; B. Page-by-page correction after written confirmation.	Admissions Office + relevant colleges / Preparatory Program	F-040, F-023, F-024, F-025, F-027, F-042, F-054, F-059, F-060, F-071, F-070, F-117, F-124, F-065, F-067, F-061, F-029, F-050
D-04	**Graduate eligibility and English-language requirements** Which IELTS/TOEFL thresholds govern each graduate programme (6.0 vs 6.5; EMGMS 7), which GPA rules apply (PhD BA 2.80/3.00/3.20; "Very Good"), and which programme-specific conditions (work experience, written test, duration) are current?	A. Approved graduate entry matrix by programme; B. Remove non-PMU text (EMGMS) immediately and confirm values afterwards.	Graduate programme owners + Admissions Office	F-073, F-100, F-097, F-077, F-084, F-087, F-099, F-092, F-095, F-101, F-089
D-05	**Programme portfolio and official names** Which programmes are currently open for admission (including B.S. Chemical Engineering, EMGMS, the Master of Engineering in Innovation, Sustainability and Entrepreneurship, Medicine), and what are their official names and abbreviations?	A. Publish one authoritative programme list used by all admission pages; B. Mark programmes not open for admission.	Admissions Office + college/programme owners	F-012, F-043, F-048, F-074, F-106, F-094, F-083
D-06	**Legacy guides and linked resources** Should the 2018 Web Admission Guide and the 2017 Aptis guide be withdrawn, replaced or archived, and who restores or removes the broken scholarship links?	A. Withdraw now and replace later; B. Replace before withdrawal; C. Archive with a dated "historical" label.	Admissions Office + website content publisher	F-036, F-121, F-035

D-07	**Contact channels and enquiry-form privacy** Which official Admissions contact details (email, telephone, hours) should be published, and which privacy notice applies to the Admission Query form and the portal?	A. Publish an official Admissions contact block on every admissions page; B. Link the university privacy notice from forms.	Admissions Office (privacy wording: owner to be confirmed)	F-002, F-020, F-034, F-044, F-110, F-031
D-08	**Content ownership, review cycle and single source of truth** Who is the accountable owner and approver for each admissions page, what review cycle applies (e.g. before each cycle opens), and should pages display a "last reviewed" date?	A. Named owner per page plus a pre-cycle review; B. Central editor with owner sign-off.	Admissions leadership	
D-09	**Approval of ready editorial corrections** May the 48 editorial corrections (Annex sheet) and the editorial findings be implemented directly, given that none changes a value or requirement?	A. Approve as a batch; B. Approve page by page.	Admissions Office (content approver)	35 editorial findings + 48 annex corrections
D-10	**Accessibility and technical publishing baseline** Should admissions pages meet a stated accessibility baseline (e.g. WCAG 2.1 AA: language attribute, image alternatives, landmarks, mobile reflow) and secure links?	A. Adopt WCAG 2.1 AA for admissions pages; B. Address listed items only.	Website content publisher / IT (owner to be confirmed)	F-003, F-004, F-008, F-069, F-009, F-131

All decisions are pending; approval fields in the register are intentionally blank. Proposed owners require confirmation.

10. Proposed follow-up plan

ID	Action	Priority	Decision	Proposed owner	Indicator
A-01	Publish an interim notice on the current admission cycle on the root page and Admissions Calendar	P0	D-02	Admissions Office	Notice visible on both pages; dated
A-02	Confirm the fee schedule by applicant category (incl. VAT basis) and align all fee statements	P0	D-01	Admissions Office + Financial Affairs	Zero conflicting fee statements on re-read
A-03	Remove or replace the discontinued SAT II requirement after confirming the accepted alternative	P0	D-03	Admissions Office + colleges	Requirement aligned on all pages
A-04	Remove non-PMU (UA CESL) text from the EMGMS page and confirm its English threshold	P1	D-04	Graduate programme owner + Admissions	Text removed; threshold confirmed
A-05	Approve one graduate English-requirements matrix and correct the generic application form	P1	D-04	Graduate programme owners	Form and programme pages match
A-06	Approve one undergraduate admission matrix (tests, minimums, weights, documents)	P1	D-03	Admissions Office + colleges	All undergraduate pages reference the matrix
A-07	Withdraw or replace the 2018 Web Admission Guide; restore or remove broken scholarship links	P1	D-06	Admissions Office + publisher	No 404 links; guide current or withdrawn
A-08	Publish one authoritative programme list and fix programme naming	P1	D-05	Admissions Office + programme owners	Lists identical across pages
A-09	Publish official Admissions contact details and link a privacy notice from forms	P1	D-07	Admissions Office	Contact block and privacy link present
A-10	Implement the 48 approved editorial corrections and editorial findings	P2	D-09	Admissions content editor + publisher	Each corrected occurrence re-read and logged
A-11	Address the accessibility baseline items (lang attribute, alt text, landmarks, mobile reflow, https links)	P2	D-10	Publisher / IT	Automated re-check passes for listed items
A-12	Assign a named owner per page, set a pre-cycle review and display "last reviewed" dates	P2	D-08	Admissions leadership	Owner register approved; dates visible
A-13	Design and run a short applicant information-experience survey (design only in this review)	P3	D-08	Admissions Office (owner to be confirmed)	Survey approved before any data collection

Each action closes only after publication and a documented re-read of the affected pages. A request for approval, a local draft and a completed website update are distinct states and are tracked separately in the register.

11. Unexamined resources and material gaps

Gap	Effect	Route to completion
Four portal registration labels (F-033) load dynamically and could not be read without using the form.	Possible spelling errors remain unconfirmed.	Manual visual check by Admissions staff.
http:// portal link (F-131) did not respond from the review network.	Primary application step may fail for some users.	Open the link from a public browser; replace with https.
Staff list (personal data) checked for destination only.	Accuracy of listed contacts not assessed.	Owner review.
Aptis Candidate Guide: text of 50 pages read; illustrations not individually inspected.	Limited; the guide is recommended for replacement.	Replace with current British Council resources.
No applicant data or feedback available.	Experience findings are content-based only.	Proposed design in Section 7.
Operational application of published procedures not verified.	The report does not state how procedures are applied internally.	Owner confirmation in D-01 to D-04.
Legacy admission pages not linked from the current root were not audited.	They may still be indexed by search engines.	Decide retirement under D-06/D-08.

12. References to the register and evidence

Register sheet	Content
README / Source Register	Order, versions, sources and their authority
Master Findings Register	131 findings F-001 … F-131 + H-1 … H-6 + V-01 … V-10 (19 mandatory fields)
Evidence Register	154 evidence items (E-…), live re-confirmations (RC-…), screenshots EV-01 … EV-14
URL & Resource Inventory / Scope Coverage Matrix	Resources, discovery paths, statuses and coverage by section
Arabic-English Parity	10 pairs and search steps
Historical Amendment Verification	H-1 … H-6
Decision Register (= Decision & Approval Matrix)	D-01 … D-10
Corrective Action Tracker (= Roadmap)	A-01 … A-13
QC & Acceptance Matrix	G1 … G5
Change Log; Editorial Corrections; Definitions	v1.0 … v3.0; 48 corrections

Annex A — Status of the amendments requested on 26 October 2025

ID	Requested amendment	Status (21 Oct 2026)	Published evidence
H-1	Minimum weighted scores 74% (CS & Engineering) / 72% (non-Engineering) with competitive-minimum and interview note	**NOT_PUBLISHED**	No "74%" or "72%" appears on any captured page; the CS & Engineering page refers to a "minimum weighted total, defined by the Admissions Office".
H-2	Addition of B.S. Chemical Engineering	**PARTIALLY_PUBLISHED**	Listed on Degrees & Programs and the list of majors; absent from the special-requirements majors list on the CS & Engineering requirements page.
H-3	Application fee SAR 500 → SAR 950 for international, transfer and visiting students	**PARTIALLY_PUBLISHED**	SAR 950 (incl. VAT) on Transfer and Visiting pages; SAR 500 (excl. VAT) remains on the International Students page. The request specified "excl. VAT"; the official schedule states "includes the VAT 15%". Escalation: the VAT basis of the request conflicts with the published official schedule.
H-4	Removal of SAAT / SAT 2 requirement for CS & Engineering	**PARTIALLY_PUBLISHED**	"SAT 2" no longer appears on the CS & Engineering requirements page, but "(SAAT – Tahseely)" is still listed there and "SAT II 30%" remains on the International Students page. The intended scope of the request (removing SAT 2 only, or Tahseely as well) needs confirmation.
H-5	APTIS retake fee SAR 575 → SAR 950 (VAT)	**NOT_PUBLISHED**	"APTIS Exam Fees SAR 575" on the Other Fees page.
H-6	Revision of the Web Admission Guide	**NOT_PUBLISHED**	The linked guide is unchanged (MD5-identical to 11 Oct 2026; dated December 2018; p. 20 states SR 500).

Annex B — Index of all findings

ID	P	Title	Page	Category	Verification
F-001	P2	Admissions Office landing page lacks core applicant guidance	Admissions Office	Missing information important to applicants	Current
F-002	P2	"Contact Us" link does not lead to an Admissions contact	Admissions Office	Missing information important to applicants	Current

F-038	P3	Graduate side-menu “Tuition & Fees” link opens general fees page	Admissions side menu (shared)	Verified error in published information	Current
F-039	P0	Conflicting application fees for transfer and visiting students	International Students’ Office	Conflict between two or more sources	Current
F-040	P0	International freshman criteria require discontinued SAT II test	International Students’ Office	Outdated or expired content	Current
F-041	P1	No published application route or deadline for non-Saudi applicants	International Students’ Office	Missing information important to applicants	Current
F-042	P1	Missing SAT minimum and empty Transportation section for international students	International Students’ Office	Missing information important to applicants	Current
F-043	P2	International Students graduate tab lists only three programmes	International Students’ Office	Missing information important to applicants	Current
F-044	P2	No direct contact details for the International Admissions Office	International Students’ Office	Missing information important to applicants	Current

F-045	P3	Language and editorial errors on the International Students page	International Students' Office	Verified error in published information	Current
F-046	P3	Unclear link labels in the Why PMU section	International Students' Office	Ambiguity in procedures or fees	Current
F-047	P3	Housing text written in future tense from launch phase	International Students' Office	Missing information important to applicants	Current
F-048	P2	Undergraduate college list omits the College of Medicine	Undergraduate Programs Admissions	Missing information important to applicants	Current
F-049	P3	Grammatical error in the New Applicant section	Undergraduate Programs Admissions	Verified error in published information	Current
F-050	P2	Conflicting certificate attestation authority across admission pages	Undergraduate Programs Admissions	Conflict between two or more sources	Current
F-051	P3	Improper heading hierarchy on three admissions pages	Undergraduate Programs Admissions	Verified error in published information	Current
F-052	P0	Conflicting College of Medicine application fee	Admissions to the College of Medicine	Conflict between two or more sources	Current
F-053	P1	Inconsistent application channel across undergraduate pages	Admissions to the College of Medicine	Ambiguity in procedures or fees	Current
F-054	P1	College of Medicine minimum scores inconsistent with weighted-score threshold	Admissions to the College of Medicine	Verified error in published information	Current
F-055	P2	Informal admission criteria and incomplete requirements for Medicine	Admissions to the College of Medicine	Ambiguity in procedures or fees	Current
F-056	P3	Incorrect college name and editorial errors on Medicine pages	Admissions to the College of Medicine	Verified error in published information	Current
F-057	P3	Missing CCC explanation and confusing Year 6 rotation layout	Admissions to the College of Medicine	Verified error in published information	Current
F-058	P3	Inconsistent terminology and list wording on the Preparatory Program page	Admission to the Preparatory Program	Verified error in published information	Current
F-059	P1	TOEFL iBT minimum not published on undergraduate admission pages	Direct Admissions from Secondary School	Missing information important to applicants	Current
F-060	P2	IELTS–TOEFL iBT score equivalence requires verification	Direct Admissions from Secondary School	Cannot currently be verified	Current

F-061	P2	Inconsistent identity-document requirements across application lists	Direct Admissions from Secondary School	Conflict between two or more sources	Current
F-062	P3	Grammatical error and ambiguous GPA wording for transfer candidates	Admissions from Other Universities	Verified error in published information	Current
F-063	P3	Undefined “Western country” eligibility criterion for transfer applicants	Admissions from Other Universities	Ambiguity in procedures or fees	Current
F-064	P3	Inconsistent naming in titles and breadcrumbs of two pages	Visiting Student Admission	Verified error in published information	Current
F-065	P2	Conflicting Preparatory mathematics requirements table and footnotes	Admission from the Preparatory Program to Undergraduate Programs	Conflict between two or more sources	Current
F-066	P2	EXIT exam requirement lacks description and passing score	Admission from the Preparatory Program to Undergraduate Programs	Missing information important to applicants	Current
F-067	P2	Mathematics requirements table omits Medicine and Artificial Intelligence	Admission from the Preparatory Program to Undergraduate Programs	Cannot currently be verified	Current
F-068	P3	Missing possessive apostrophe and inconsistent course code spacing	Admission from the Preparatory Program to Undergraduate Programs	Verified error in published information	Current
F-069	P2	Horizontal scrolling required on mobile devices	Admission from the Preparatory Program to Undergraduate Programs	Verified error in published information	Not re-tested
F-070	P1	Inconsistent list of majors with special admission requirements	Admissions Requirements , Computer Science and Engineering Majors	Conflict between two or more sources	Current
F-071	P2	Minimum weighted total referenced but its value not published	Admissions Requirements , Computer Science and Engineering Majors	Ambiguity in procedures or fees	Current
F-072	P2	Ambiguous wording of the English language test requirement	Admissions Requirements , Computer Science and Engineering Majors	Verified error in published information	Current
F-073	P1	Conflicting IELTS minimum between application form and programme pages	Graduate Admissions	Conflict between two or more sources	Current
F-074	P1	Engineering Management Master’s programme listed without an application route	Graduate Admissions	Ambiguity in procedures or fees	Current
F-075	P2	Generic link labels that do not identify the programme	Graduate Admissions	Missing information important to applicants	Current
F-076	P3	Inconsistent programme headings and abbreviations	Graduate Admissions	Ambiguity in procedures or fees	Current

F-077	P2	Inconsistent numerical definition of the “Very Good” grade	Application Form for MSDH	Ambiguity in procedures or fees	Current
F-078	P2	Incorrect browser title on the PhD in Mechanical Engineering page	Application Form for MSDH	Verified error in published information	Current
F-079	P2	Graduate programme pages lack credit hours, duration and mode	Application Form for MSDH	Missing information important to applicants	Current
F-080	P3	Missing article in the interview statement across graduate pages	Application Form for MSDH	Verified error in published information	Current
F-081	P3	Misspelling of “ADMISSIONS” in graduate page headings	Application Form for MSDH	Verified error in published information	Current
F-082	P3	Imprecise wording in the PhD in Mechanical Engineering introduction	Application Form for MSDH	Ambiguity in procedures or fees	Current
F-083	P2	Undocumented AACSB accreditation claim for the PhD programme	Admissions Requirements , Admissions to the PhD in Business Administration	Cannot currently be verified	Current
F-084	P1	Ambiguous eligibility conditions for the PhD in Business Administration	Admissions Requirements , Admissions to the PhD in Business Administration	Ambiguity in procedures or fees	Current
F-085	P3	Grammatical and punctuation errors on the PhD in Business Administration page	Admissions Requirements , Admissions to the PhD in Business Administration	Verified error in published information	Current

F-087	P2	Ambiguous work experience requirement for the Executive MBA	Admissions Requirements , Executive MBA Program (EMBA)	Cannot currently be verified	Current
F-088	P3	Verbose wording of the reference letters requirement	Admissions Requirements , Executive MBA Program (EMBA)	Missing information important to applicants	Current
F-089	P2	Unclear status of MBA foundation courses for non-business graduates	Admissions Requirements, MBA Program (MBA)	Ambiguity in procedures or fees	Current
F-090	P2	Work Experience heading without any stated requirement	Admissions Requirements for MSHD	Missing information important to applicants	Current
F-091	P3	Editorial errors on the Master’s in Human Development page	Admissions Requirements for MSHD	Verified error in published information	Current
F-092	P3	Differing wording of the recognised-university condition	Admissions Requirements for MSHD	Cannot currently be verified	Current

F-093	P3	Incorrect capitalisation on the Master's in Mechanical Engineering page	Admissions to the Master of Science in Mechanical Engineering (MSME) Program	Verified error in published information	Current
F-094	P3	Future-tense wording suggests programmes not yet launched	MSEE ADMISSSIONS REQUIREMENTS	Missing information important to applicants	Current
F-095	P2	Unspecified degree discipline for the Master's in Electrical Engineering	MSEE ADMISSSIONS REQUIREMENTS	Ambiguity in procedures or fees	Current
F-096	P3	Punctuation and naming errors on Civil and Electrical Engineering pages	MSCE ADMISSSIONS REQUIREMENTS	Verified error in published information	Current
F-097	P1	Engineering Management requirements page contains another university's content	Admissions Requirements, Master of Science in Engineering Management (EMGMS)	Verified error in published information	Current
F-098	P3	Missing space and non-standard abbreviation in the Engineering Management subheading	Admissions Requirements, Master of Science in Engineering Management (EMGMS)	Verified error in published information	Current
F-099	P1	Incomplete admission requirements for the International Business Law Master's	Admissions to the Master of Arts (MA) in International Business Law Program	Missing information important to applicants	Current
F-100	P1	Conflicting IELTS and TOEFL thresholds for the International Business Law MA	Admissions to the Master of Arts (MA) in International Business Law Program	Conflict between two or more sources	Current
F-101	P2	Stated programme duration inconsistent with credit-hour load	Admissions to the Master of Arts (MA) in International Business Law Program	Ambiguity in procedures or fees	Current
F-102	P3	Introductory wording assumes 2025 is the current year	Admissions to the Master of Arts (MA) in International Business Law Program	Missing information important to applicants	Current
F-103	P3	Compound sentence conflates part-time admission and programme delivery	Admissions to the Master of Arts (MA) in International Business Law Program	Ambiguity in procedures or fees	Current
F-104	P2	Graduate programmes priced without admission pages or listings	Post Graduate Fees	Ambiguity in procedures or fees	Current
F-105	P2	Basis of graduate tuition fees not stated	Post Graduate Fees	Missing information important to applicants	Current
F-106	P2	Inconsistent names for the same graduate programmes	Post Graduate Fees	Verified error in published information	Current
F-107	P3	Inconsistent decimal precision in credit-hour rates	Post Graduate Fees	Ambiguity in procedures or fees	Current

F-108	P2	Differing continuing-graduate credit-hour rates for MBA and Executive MBA	Post Graduate Fees	Cannot currently be verified	Current
F-109	P3	Expired payment schedules and dated link label in sidebar	Post Graduate Fees	Missing information important to applicants	Current
F-110	P2	Incomplete graduate admissions contact information	Contact Info	Missing information important to applicants	Current
F-111	P2	Expired 2025/2026 payment schedules still listed	Undergraduate Fees	Outdated or expired content	Current
F-112	P3	Continuing-student fee link labelled with 2024–2025	Undergraduate Fees	Missing information important to applicants	Current
F-113	P3	Inconsistent link labels on the undergraduate fees page	Undergraduate Fees	Ambiguity in procedures or fees	Current
F-114	P3	Non-standard spelling “Post Graduate” in sidebar	Undergraduate Fees	Verified error in published information	Current
F-115	P3	Language tests overview lacks summary of key requirements	Undergraduate Placement Tests	Missing information important to applicants	Current
F-116	P3	Weak wording and inaccurate Aptis description on overview page	Undergraduate Placement Tests	Verified error in published information	Current
F-117	P1	Conflicting accepted tests for direct Core Program entry	Aptis Placement Test	Conflict between two or more sources	Current
F-118	P2	Aptis placement table lacks score bands and CEFR levels	Aptis Placement Test	Missing information important to applicants	Current
F-119	P2	Missing Aptis scheduling, fee, retake and validity information	Aptis Placement Test	Missing information important to applicants	Current
F-120	P3	Multiple grammatical errors on the Aptis page	Aptis Placement Test	Verified error in published information	Current
F-121	P3	Hosted Aptis Candidate Guide dates from 2017	Aptis Placement Test	Missing information important to applicants	Current
F-122	P2	IELTS page omits result submission method and accepted formats	THE INTERNATIONAL ENGLISH LANGUAGE TESTING SYSTEM (IELTS)	Missing information important to applicants	Current

F-123	P3	Recurring grammatical errors on the IELTS and TOEFL pages	THE INTERNATIONAL ENGLISH LANGUAGE TESTING SYSTEM (IELTS)	Verified error in published information	Current
F-124	P2	TOEFL iBT requirements possibly based on superseded score scale	TOEFL	Outdated or expired content	Current
F-125	P3	TOEFL Home Edition exclusion note poorly placed	TOEFL	Missing information important to applicants	Current
F-126	P2	Tahseely link points to the Humanities track page	SAT	Verified error in published information	Current
F-127	P2	SAT result validity and superscore policy not stated	SAT	Missing information important to applicants	Current
F-128	P3	“Wave” misspelt for “waive” on SAT and requirements pages	SAT	Verified error in published information	Current
F-129	P3	Inconsistent naming of the SAT across pages	SAT	Ambiguity in procedures or fees	Current
F-130	P3	Mathematics waiver table omits course codes	SAT	Missing information important to applicants	Current
F-131	P2	Application links use the unencrypted portal address (http)	Admissions from Other Universities	Cannot currently be verified	Not verifiable
