1 Executive summary

48	130	2 · 12	10	10
eligible resources reviewed	findings	P0 · P1	proven published conflicts	decisions required

The Admissions Office content is extensive and generally organised by applicant category, but it cannot currently serve as a reliable single source for applicants. On 22 October 2026 the two P0 issues remain live: the published application fee conflicts for international transfer and visiting applicants (SAR 500 vs SAR 950) and for the College of Medicine (SAR 1,000 vs SAR 1,150). High-priority (P1) issues include the absence of a current admission cycle, the discontinued SAT II test in the international weighting, conflicting graduate English thresholds, and another university's text on a graduate requirements page. Across 48 eligible resources the review recorded 130 findings — 2 P0, 12 P1, 59 P2 and 57 P3 — including 10 proven conflicts between published statements, together with 10 verified strengths. Of the six amendments requested on 26 October 2025, 3 are not published and 3 are partially published.

Ten decisions are required. Most fee and admission-requirement values rest with authorities outside the Admissions Office and are presented for referral; five matters fall within the Office's own remit and can be directed now: an interim cycle notice, withdrawal of the 2018 guide, official contact details, content ownership and 48 editorial corrections. Where published statements conflict, no value has been chosen; each conflict awaits institutional confirmation.

READY FOR MANAGEMENT REVIEW

NOT READY FOR VERIFIED CLOSURE

2 Scope and method

Scope

Starting point: https://www.pmu.edu.sa/admission/admission. The scope was rediscovered on 22 October 2026: the five sections of the root page carry 36 link placements resolving to 35 unique destinations. In scope are those destinations, the shared admissions menu, the bilingual content of /apply, the public landing page of the application portal, two linked PDF guides, and nine official pages used to verify specific statements (fee schedules, application forms, list of majors, the calendar opened by the footer link, the preparatory study plan). University-wide navigation is not treated as an admissions branch.

Method

- Independent review of every published content unit against seven areas: requirements, tests and English, fees, programmes, admission cycle, applicant categories and content quality.
- Systematic capture of each page (visible and tab content) and full reading of both PDF guides; status check of every link found on in-scope pages.
- Source verification: each finding quotes the published text verbatim with its URL and location; each conflict is documented on both sides; errors are tied to a governing reference.
- Cross-source comparison of values across pages, forms, fee schedules and the Arabic and English text.
- Evidence validation: all findings were re-matched against the 22 October 2026 capture; highest-risk items were re-checked live the same day.
- Independent challenge of every P0/P1 finding, conflict and error against the original evidence before acceptance; disagreements were resolved by returning to the source.
- Quality control across all deliverables (identifiers, counts, statuses, Arabic–English equivalence and document integrity).

Exclusions

Read-only review. No form was submitted, no portal or internal system was accessed, no applicant data was used, no security or performance testing was performed and no website content was changed. Applicant opinions are not part of this assignment.

4 Priority findings

P0 F-039 — Conflicting application fees for transfer and visiting students

International Students' Office · Proven published conflict · Decision D-01 · Still published as quoted (22 Oct 2026)

The International Students page states that the application fee for transfer and visiting students is SAR 500 excluding VAT, whereas the Transfer Admissions page, the Visiting Students page and the official fees page state that the undergraduate application fee is SAR 950 including VAT. The same page also states SAR 950 including VAT in its Freshman Students section.

Severity rationale: Applicants are shown two different non-refundable application fees for the same category, which can cause direct financial and procedural harm.

P0 F-052 — Conflicting College of Medicine application fee

Admissions to the College of Medicine · Proven published conflict · Decision D-01 · Still published as quoted (22 Oct 2026)

The College of Medicine page states that the application fee is SAR 1000 including VAT, whereas the medical programme fees page states SAR 1,150 including VAT (equal to SAR 1000 plus 15%). The other undergraduate pages and the Apply page, which state SAR 950, do not indicate that the College of Medicine has a different fee.

Severity rationale: Medical applicants are shown conflicting non-refundable application fees, which can cause direct financial harm.

8 Historical amendment status (requests of 26 October 2025)

ID	Request	Status	Current published evidence (22 Oct 2026)
H-1	Minimum weighted scores 74% (CS & Engineering) / 72% (non-Engineering) with competitive-minimum and interview note	**NOT_PUBLISHED**	No "74%" or "72%" appears on any captured page; the CS & Engineering page refers to a "minimum weighted total, defined by the Admissions Office".
H-2	Addition of B.S. Chemical Engineering	**PARTIALLY_PUBLISHED**	Listed on Degrees & Programs and the list of majors; absent from the special-requirements majors list on the CS & Engineering requirements page.
H-3	Application fee SAR 500 → SAR 950 for international, transfer and visiting students	**PARTIALLY_PUBLISHED**	SAR 950 (incl. VAT) on Transfer and Visiting pages; SAR 500 (excl. VAT) remains on the International Students page. The request specified "excl. VAT"; the official schedule states "includes the VAT 15%". Escalation: the VAT basis of the request conflicts with the published official schedule.
H-4	Removal of SAAT / SAT 2 requirement for CS & Engineering	**PARTIALLY_PUBLISHED**	"SAT 2" no longer appears on the CS & Engineering requirements page, but "(SAAT – Tahseely)" is still listed there and "SAT II 30%" remains on the International Students page. The intended scope of the request (removing SAT 2 only, or Tahseely as well) needs confirmation.
H-5	APTIS retake fee SAR 575 → SAR 950 (VAT)	**NOT_PUBLISHED**	"APTIS Exam Fees SAR 575" on the Other Fees page.
H-6	Revision of the Web Admission Guide	**NOT_PUBLISHED**	The linked guide is unchanged (MD5-identical to 11 Oct 2026; dated December 2018; p. 20 states SR 500).

11 Gaps and limitations

- No approved, dated policy or fee decision was available; conflicting values are reported as open conflicts and were not resolved by assumption.
- BLOCKED: four portal registration labels load dynamically (F-033); the http:// portal link could not be confirmed from the review network (F-131). Manual check recommended.
- Official external references (College Board, ETS) were located but their pages could not be retrieved directly; they are cited by URL.
- Operational application of the published procedures was not verified. Legacy admission pages not linked from the current root were not reviewed.
- No correction has been published; all P0 risks remain live on 22 October 2026.
